Episode 26: Intermezzo

(A bonus episode created for the release of the last volume of the DVDs in Japan.)

This episode is a side-story involving Mimiru and Bear, who are going through a dungeon during a CC-sponsored event. However, much to Bear's surprise, they are not playing the event—Mimiru wants to head straight to the bottom of the dungeon to check on something. Bear is surprised that Mimiru knows so much about this dungeon; as they make their way through the levels, Mimiru explains the story of how she started to play the world, and a character who made a difference to her.

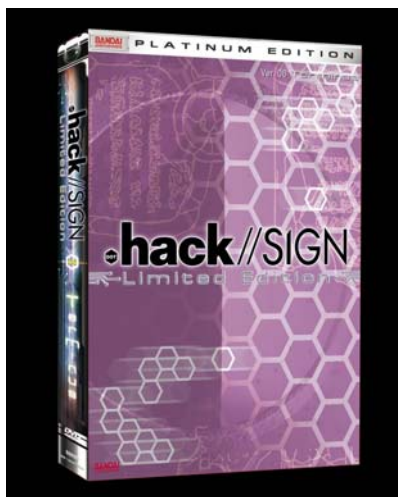

Episode 27: Evidence

(Originally aired as Episode 15 on the Japanese TV broadcast.)

“Evidence” begins with a recap of the previous episode, where Tsukasa was struck down by the Guardian. But what would happen if Tsukasa's character was killed while he was trapped in the world. Through flashbacks, the other characters relive the prior events in the series, including the search for the Key of the Twilight which has led them up to this point.
